Write something special that you would like Santa to bring you or your family:

My wife was a 4th generation quilter. She had a collection of over 30 heirloom quilts handed down thru the family which she lost. I would like to give her a quilt to start over but due to my medical situation am unable to go shopping

Please use back or another sheet of paper, if you want to write more. We want to hear your story.

while in Memphis on September 13 I suffered a heart attack which required triple by pass Surgery. A week after my release From the hospital I was back in again with pheumonia and staph infection. When I was finally released From the doctors we traveled to our Daughters house in Mandeville. Since being there I have been in the hospital twice with pheumonia.

Our son did not want to leave Waveland and rode out the storm at [redacted] Penon St. We did not know if he survived until a week later and located him at West Point MS where he was evacted to. When his house filled with water he climbed onto the roof and floated approximately 2 blocks where he found a 2 story house and climed upstairs to the roof and rode the storm out there.
